

2022 Nanospace Engineering Seminar#

Primary and Secondary Raw Materials in Balkans: Potential for Pan-European Material Science and Technology Boost

Professor Suzana Gotovac Atlagic

**University of Banja Luka
Faculty of Natural Sciences and Mathematics
Bosnia-Herzegovina**

**Date and Time: July 14, Thursday
15:00-16:00**

Room: AICS communication room 412

Dr. S. Gotovac Atlagic Altangi, who is a young scientific leader in Bosnia-Herzegovina, has actively studied materials chemistry of Bosnia-based minerals and carbon materials. She will show how to start a new material science using valuable resources in her country together with the regional industries. She can speak Japanese fluently, but the seminar will be done in English.

Inquiries: Professor Katsumi Kaneko
